PROFILE SUMMARY

Full Stack Web Developer with professional experience building and maintaining modern web applications for real-world products. Strong hands-on expertise across **React, Next.js, TypeScript, Tailwind CSS, NestJS, Node.js, PostgreSQL, Prisma, REST APIs, and authentication**. Experienced in turning requirements into responsive user interfaces, scalable backend services, database-driven features, dashboards, and production deployments. Comfortable working with Git-based development workflows, debugging complex issues, and delivering complete features from frontend to backend

PROFESSIONAL EXPERIENCE

Web Developer — Computerized AI

Dec 2025 - current

- Develop and enhance production web applications using **React, Next.js, TypeScript, and Tailwind CSS**, with a focus on responsive and maintainable UI.
- Build backend **services and REST APIs** with **NestJS and Node.js**, including authentication, validation, business logic, and integration with frontend applications.
- Design and integrate **PostgreSQL databases with Prisma**, handling schemas, queries, relationships, and application data workflows.
- Implement application features such as dashboards, analytics, forms, API clients, authentication flows, and database-backed functionality
- Use Git and modern development workflows to debug issues, improve existing features, and collaborate on software projects

SELECTED PROJECTS

Fitlab - Gym Management System:

- Built a full-stack system for member management, invoices, diet plans, fitness goals, and attendance, with fingerprint/QR-code scanning and monthly revenue analytics for streamlined gym operations.

Qalb Sync -Religious App:

- Built a centralized platform for accessing religious content, YouTube lectures, online sessions, and Google resources, providing users with a streamlined and accessible digital learning experience.

Computerized Revamp :

- Worked on web application development and feature implementation, including responsive interfaces, API integration, and iterative improvements to application functionality

Personal Portfolio & Contact Platform:

- Built and deployed a professional developer portfolio with a React/Vite frontend and NestJS backend, PostgreSQL database, Prisma ORM, contact messaging, and production deployment workflow.

TECHNICAL SKILL

Frontend : React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, React Router, React Hook Form

Backend : NestJS, Node.js, REST APIs, JWT

Databases : PostgreSQL, Prisma ORM, SQL, Supabase

Tools & Deployment : Git, GitHub, Vercel, Render, Postman, VS Code

Development : Responsive Design, API Integration, Authentication, Database Design, Debugging

EDUCATION

AIR UNIVERSITY ISLAMABAD

2026 - 2030

- Bachelor of Science (Data Science)(In process)

IMCB G-11/1, Islamabad

2023 - 2025

- ICS (Physics, Computer, Mathematics)
- 902/1100 - **82%**

IMCB G-11/1, Islamabad

2021-2023

- Matriculation (Physics, Chemistry, Computer Science)
- 913/1100 - **83%**

CORE STRENGTHS

- Problem Solving
- Critical Thinking
- Clean & Maintainable Cod
- Fast Learning
- Team Collaboration
- Communication

LANGUAGES

- English
- Urdu
